\*\*\* WITHOUT RRIGATION Gleichen District Highest Werage Yield Wheat & Oats Sunny Alberta In 1906 ACCORDING TO \$ ..... ....

Year II., No. 14.

GLEICHEN, ALBERTA, THURSDAY, JUNE 25, 1908.

\$1.50 Per Year

J. M. Telford has decided to plant ten acres of winter oats this fall as an experiment, and it will be watched with great interest by the farmers of this district, In the course of conversation the other day he said he had noticed around his quat stacks and other places where outs were drapped in the fall that the growth was much shead of the oats planted in his field this spring and he believes that there is a lesson to be learned from the fact. Mr. Telford has been here for over swenty years but says he is still quite anxious to learn more of the possibilities of this country, where from a small start he has already made a fortune. Others have since expressed the same oninion and it will at least be very intering to watch the experiment with winter-unte.

The ranchers coming in from Red Heer river and Rosebud creek report the runds in a very bad condition since the heavy rains. From Red Deer river many of the ranchers are going to State tier to transact their business on account of the roads being in a better conditions than to Gleichen, although the distance is considerably longer. It is hoped the tiovernment will have three roads atmed to at once as recommended by the Board of Trade some time ago.

Professor Campbell, the Nebraskan soil culture expert, apeaks in the Forcaters hall tomorrow afternoon at 2 a'clock, and it is expected the farmers from far and near will not miss the apportunity of hearing him. From Medicine lint and other places he visited comes the news that his meetings were the largest ever held by the farmers and the greatest interest taken in his explaination of his dry farming system.

Mesars, W. R. McKie, E. Griesbach and th. Wakefield attend the fifth annual convention of the Associated Boards of Trade of Western Canada held at Medjoine Hat but week us the Gleichen di-legator, and will give a report of the convention at the next meeting, which they state was a great access and will smult in much good,

Dr. Sheets attend a meeting of Shainers at Calgary last week, where he was accompanied by Mrs. Sheets, All those versed in the mysteries of Masonry will appreciate the dignity of this meeting. he is necessary for a man to be a 32ml degree Mason or a Knight Templar before he can qualify as a Shriner.

The opinion has often been expressed 3 ostponed indefinitely.

Ti e. Young Reoples' Society of the Christian Endeavor, the Union Sanday bors, but his family have made many School and the Public School, have unital to hold a picuic at the Yellow Horro tript, and in this their hour of great crossing on the Bow, on July lat. Foot, bull, races, etc., will be the order of the tire community in their bereavement. dir.

Rev. John McDougal, the well-known missionary, was in town Saturday making arrangements with the Blackfoot Indiana to attend the Dominion Exhibition at Culgary, and as a result the Implieus will attend on masse.

Mrs. James Notter arrived last week from Tozonto, she was occompanied by her sixts, Nes. Booth as far as Grenfell. Mrs. Notter in visiting her daughter, Mrs. W. S. Cosgrave, and her two sons, Ralph and Dick.

able to work a ain.

The Foresters are preparing for a hig dance on the 1st,

If you want servants apply to The Call Employment Agency.

The enterprise of a city is mirrored in

the columns of its newspaper, The live ad is a silent evidence of

man's desire for more business. W. Bartlett und R. W. Chamberlain were visitors from Oalgary Monday.

S. G. Hedges and wife and Miss Clark were visiture to town Saturday from Namaka.

Prestwich Bros. sold another parload of horses last week, making three cars already this season.

#### **PUBLIC CONSERVATIVE MEETING SATURDAY**

#### Candidate C. A. Magrath and Other Speakers Coming

C. A. Magrath of Lethbridge, the Conservative candidate for this riding in the coming election, was a visitor in consumption of spirits during the year town Tuesday, arriving from Calgary on was 889 of a gallon per head of popula the afternoon train. Mr. Mugrath met tion, against .947 the year previous. Beer some of the local Conservatives and was consumed to the amount of 5,812 arranged for a public meeting on Saturday next, at 8:30 p.m. Mr. Magrath has represented by acclamation for three terms his home riding in the North West Legislature, and while a stranger here is well and favorably known in the south. Accompanying Mr. Magrath on Saturday eveniese is expected some of

#### Forestry Department Good Work

Two million trees per year has been for the past five years the average number of trees sent out by the Department of the Interior, through its Forestry Branch, to settlers on the western prairies, to be pinnted, for the most part, for windbreaks and ghelterbelts. The total number of trees would plant an area of some 4,000 weres set-out under the regulations of the forestry branch. The scheme has been in operation since 1901. and is fully described in a pamphlet issued by the Department. The Brauch time for several years past conducted its own nursery at Indian Head. All the trees are new grown at this nursery, with the exception of Dakota cottonwood, which it is found much chesper to in. port from Dakota. The trees used are a very pretty spot, but the growth of for the most part planted for shelter and windbreaks, the need of which is readily appreciated by anyone who has lived upon or travelled over the prairie; incidentally they form a very welcome relief for the monotony of the prairie kies without a squeeze. landscape, and make the farmstead far more home-like, and so have considerable esthetic value. Thorough inspec tion, both of the land to be planted the year previous to planting and of plants. tions already set out, is maintained, and to this much of the success is due. Eighty-five per cent and more of the trees set out are alive today. The pamphilet will be sent free to any address on application to the Superintendent of Forestey, Orinna.

M. Bollinger came into The Call sweethearts. clinations, and further states that he will plant 75 acres of wheat the coming fall. He gave it as his opinion that the winter-wheat is the best variety for time country and respons it out that is time such a good start that when the rais comes it cannot possibly do it harm white he believes such is possible with spring wheat, which may become rusted. winter oats this full, which has been grown in certain pasts of, the Unite Yugaday afternoon when the remains States and believes it should do well Mr. Rollinger has no doubt now as to, the ancoes of winter-wheat in this processions ever seen in this place. The factored district considering the open winter of last season. This had been Rev. Mr. Essom conducted the services, one of his tears, but the past winter di the deceased being a like long member the lied all his fears in this direction. To ed. In this connection we would ask of the Methodist church. Many beauti- use his own words: "When winter the farmers, nanchers and others to

### Canucks Drank Less Liquor and More Beer Last Year

An Ottewa despatch says the consump ion of cigarettes in Canada during the past ten years has incressed from 80,-582,917 to 384,809,844. The enormous growth of the habit is shown by the consumption returns for the past four years as follows; 1904, 211,802; 1905, 260,860; 1906, 260,384; 1907, 350,170.

Canada's consumption of hard liquor and tobacco declined during the past year, while the consumption of beer and wines showed a slight increase. The gallous per head, while the year previous the amount was 5,585 gallons. The consollay a lo . 600, saw eniw lo noitquips per head against .092 the year before.

The average amount of tabares con sumed was 2 898 pounds per head, while the year previous it was 2.953 pounds.

#### SIR THOMAS IS A GOOD BOOSTER

Sir Thomas Shaughnessy, president of he C. P. R , is a good booster. Among many other good things sir Thomas said at a banquet recently tendered bim in foronto the following is extracted:

"I have referred to the practically ascertained results of this year's opporations in the northwest. I know that next year with similar conditions, we shall have still greater improvement. But is there any man in this room with the requisite temerity to make a forecast as to the conditions ten years bence? Can anyone place a limit upon the possi bilities of Manitoba, Saskatchewan, Alberta and British Columbia? I would ot say within the next quarter of a century+that is too long -but within the next ten years. I think I know the vestern country as well as most people. I have watched it as carefully as any, and I would hesitate very much indeed ipon its future possibilities.

"I do not propose to refer to anything n the nature of a statistical foremat, but wa know that, given reasonable weather and it looks as though we were going to have it, the crop of that country this sociation. year should be at least 100,000,000 bushels of wheat, and this with the proseeds of their cattle, horses, dairy in dustry and other produce can give you ome estimate of the enormous purches ing power west of Lake Superior. And you people in Toronto will profit by every additional dollar of purchasing ower they bassess, provided that we Canadians are true to ourselves and realize that we must do whatever is in or nower to atrengthen the ties between that country and eastern Canada, so as to make the Canadian west an essential part of the Dominion.

inspector's report of his visit to the Gleichen school, and to say that it is a favorable report is putting it very mild indeed. However, it may be added that the inspector has the indorsation of all the people in this town in expressing his views as he has done. Gleichen has two very capable teachers and the people are aware of the fact, and The Call is very much pleased to be able to make it known, especially coming as it does from the inspector, who has the oppor unity of comparing ours with schools throughout this province. Nearly every one admits that there is nothing of more importance than good teachers and good schools in the building of a town. We already have the former and our trustees have been engaged for some months in an effort to finance for a school that will meet the ever increasing demand for a long time to come. They now give it ont that they expect shortly to secure a loan at a low rate of Interest and when that is settle will be able to go ahead with the erection, provided that the ratepayers will vote favorably.

It is a very common thing to hear the hen and the poultry business generally lightly spoken of, but a recent market publication states that the hens of heland brought listo the Green Island more money than all the grain growers of Canada brought into the Dominion; and now comes Congressman Dawson of lowe who says: "The American hen produces as much in six months as the iron mines of the country produce in a A full assortment of general year. In one year and ten months she could pay off the entire interest bearing debt of the United States."

> every ad emphasize at least one good Chuny. every ad emphasize at least one good point about their wares, they will not only have no cause to regret their venture, but will in all fibelihood become converts to the belief that advertising is an investment instead of no expense.

months, but they will have got some insight into the possibilities of advertising and will have learned that an appropriation for advertising sufficient to make a fair start is quite as essential as ready money for a stock of merchandise. And such knowledge is absolutely essential to every merchant.

An editor of an agricultural paper was grumbling about a puzzling question be had received from a city man who had recently removed to the country. The inquiry was this: "Will you kindly tell me how long cows should be milked?" The office by, passing near, heard his superior repeating the question sloud. "'Scure me, boss," he said, "but why don't ver tell him jest de same 's short dows?"-Judge.

by Dr. J. C. O. Hastings, Toronto, to the medical men assembled at Ottawa recently, that fifteen thousand children die annually in Canada as a direct result of poisoned milk. He strongly advocated the most stringent regulations governing the dairies, and it was decided that a committee should wait upon the government to emphasize the views of the as-

The Lethbridge Daily Herald is the atest addition to The Call's exchange list and is heartily welcomed. It is a bright, newsy, well-printed sheet of four pages and seven columns. W. A. Buchanan is the editor and if the Lethbridge folks know a good thing when they see it the Daily Hearld will live forever as it deserves to do.

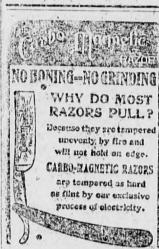

Nature still has the advantage of the reigntion Co.

The story is told of two little children who came to their mother one evening and asked if they might play store. "Yes," said the mother, "but you must remember that the baby is asleep. Play store, if you like, but don't make a net e. Play quietly." "All right, mother, eaid the older shild. "We'll pretend we don't advertise."

The Call offers you the opportunity of talking to 1500 people at the least calculation at a very low cost, all of whom are possible customers for you. Think it over, Mr, Storekeeper, and say something interesting to your audience.

Look to your works and your wings will take care of themselves.

#### SCOOOL INSPECTOR'S **FAVORABLE REPORT**

report of School Inspector J. A. Smith, addressed to Dr. Rose, secretary of the Gleichen Public School of the good work being accomplished by our teaches:

Sir,- I beg to submit for your consideration the report of my inspection of your school on the above date

Since it is the intention of the School Board to build a new four-roomed school this fall, I will say nothing re grounds, house, etc., except that the conditions for successful work are very unsatisfac

It was, indeed, gratifying to note the deep interest the pupils were taking in their work. Considering conditions, their progress is extremely satisfactory The work done in the higher standards is especially good. The real sympathy which should exist between pupils and teacher was shown by their general bearing and excellent order.

Mise Hamilton is a very energetic onscienteous teacher. She has the pro gress of her pupils at heart, and is sparing no time and application to attain the desired results. Her methods are up-to date and her government and management of the classes very satisfactory. Miss Hamilton has the faculty of securing the maximum amount of work from her pupils.

Miss Tingley's work is also of a high standard. Her work with the primary pulple is especially good. Her manner is sympathetic, patient, and encouraging. The lessons taught before me showed careful preparation. Her methods of instructions are sound, and her teaching levices, tactics, etc., satisfactory. There seemed to be a judicious distribution of time at disposal for work among the different subjects. Miss Tingley governs and manages to r classes with ease.

#### The Creed of the West

In the woolly West they say, "Boost, don't knock!" Help to push the clouds away-Boest, don't knock!" Give a man a leg up, Hoist him just a peg up-"Boost, don't knock !"

In the wooly West they sing, "Boost, don't knock!" Muffled bells will never ring-Boost, don't knock!" A brother may be hit hard, Life just proved a bit hard-"Boost, don't knock!"

In the woolly West you hear, "Boost, don't knock!" Start the laugh and not the tear-"Boost, don't knock!" Gamble on and bet it, Angels won't forget it-Boost, den't knock !"

In the woolly, nerve's supreme-"Boost, don't knock!" A deluga but a western stream-"Boost, don't knock !" Brace up, friend, and try it; Short of gul!! Why, buy it?

"Boost, don't knock."

In the West the "cruiser" screams "Boost, don't knock!" Logging bad? See good in dreams-"Boost, dou't knock!" Though your hopes be cut up, And the banks all shut up-"Boost, don't knock!"

In the West the miners say, "Boost don't knock!" Sunshine chases clouds away-"Begat, don't knock!" Sample poor? Why, chack it; Good luck in next bucket-Boost, don't knock !!

In the wooly, 'tis agreed, "Buost, don't knock!" Is our Lord's inspiring creed, "Boost, don't knock!" Manly soul's ne'er spurn it, Christ would have all learn it-Boost, don't knock?"

Truth needs no tinsel. Weakness cannot wait, Friends never come in flocks. Love is the great load stone. Labor is the noblest of all prayers,

quite husy the past few days earning line?. Now, straight, how would you be covered in two werks time it would The Indians here abouts have been sufficient money to celebrate at the ex answer? Of would you say the man in he better for the province and better for have been selling horses at very low dare not ask for more business? Of he showed to rup, any longer than that

Thur aday evening of last week a large uninher of friends gave, Mr.; and Mrs. I), C, Wishart a genuine surprise party, when a most pleasant time was spent ip song and instrumental music and dancing, and, a splendid, luncheon, supplied by the visitors.

Miller Bros., 101, Ranch Wild West, Show, recruited entirely from the great 101 Ranch, at Bliss, Okla., will appear in Calgary on Dominion Day, July 1, giving two performances and, inaugurating the day with a hig free street parade and free show on the grounde.

Rev. Mr. Castle conducted, services at Roseland Sunday and returned home the following day with Mrs. Castle, who has been visiting friends there for a month past, Her friends will, regret that her frip has not improved her health as much as was Loped.

R. H. Hogg's blacksmith shop and year. Instead, of broke one of his forelegs. killing the animal, the Indian drove it Minnesota, Michigan, and Wisconsinoff to the Reserve and, turned it loose, much to the disgust of the townspeople. It is high time some effort was made to punish the Indiana for their cruelty, to animals and if, some, steps are, not, taken the threats of the people to take the law in their own hands will sooner or latter undoubtly be the result.

It would surprise some people to learn the number of letters The Call has received during the past year inquiring for opportunities of opening up in businesses not advertised in these columns and a few of them are represented here. Now, here is a question for non-advertisere?. If you were a newspaper man and there were men doing business in town who lacked the enterprise to make it. nown and ask for more business, would stoke you not answer such letters to the enset, but whether it is teasible or not is the that there was an opportunity for a rest but whether it is teasible or not is the that there was an opportunity for a rest. live, enterprising man in this or that the line inquired about is so busy by the people if the campaign was not is so very little patronized he cannut period, afford to ask for business? Will some one be so kind as to help The Call out ie this matter by dictating a letter that will snewer the questions correctly and politely?

The busy little musquitoes are sendng in their bills just now and collecting iberally from high and low.

Even a child knows the difference be tween piety and padding.

The following are extracts from an interview given by Mr. Thomas Seaton to the New York, times, on his return opinion over political questions. from an extended trip through Alberts, If a campaign, two weeks in length

"In the region further south the settlers who come from the United littest warfare; every peace loying States are more successful, than any citizen would welcome its introduction. eshers, being toth intelligent and ux - an mountain and investig

perienced. Hence they are very wel-

"It is pleasant to think that each one of these settlers in a further guaranteg of confightity between the United States and Canada.

"Not only do they find nothing of which to complete under the British Government, but they entry many adrautages. They realize that, stretching to the northward, there is practically unlimited farmland—like Minnesote. only enormonaly mu'tipli d.

"Already American settlers have adanced right up to the lower Peace One day last week a horse helonging, River. It is said that 30,000 families to one of the Indiana threw itself, in of them settled in the region in one

> "Most of them are from the Dakotas, all farmers, no ranchmen,

"The extraordinary porthward trend of the contherners in the middle of our continent carries the wheat helt several hundred milig further north, in the middle of the country than along the Atlantic seabdard. Besides this, the soil is of a rich alluvial nature,".

#### A Political Campaign

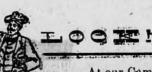

Premier Whitney of Ontario made, remark the day after the provincial elections in that prayings, that election campaigna lasted too long, A couple of weeks only of warfare between the martine was binjarrable to a six weeks

question. Could all the constituencies

The longer the campaign the more bitter becomes the fight, and the less bitterness we have in politice the better

for all of us. Most people take their politics far more seriously than their religion. man may differ with us on religion and we are not worried or annoyed to any extent by the criticion he may offer in our belief. But it is a different thing with politics. We get very indignant and hot tempered in political argu-The Yankees Bave Many Advantages ments. In fact so bitter does the feeling, become at times that, life long friends decline to speak to each other because of some patery difference of
